### RIVER TOWN ELECTRIC

River Town Electric is the premier provider for electrical service in Ohio, West Virginia, and Northeast Kentucky. From minor repairs to major electrical renovations, we employ an experienced team of experts to meet all your electrical needs. Our goal is to be a leader in electrical service and renewable energy solutions in all electrical applications. Understanding that time and cost are crucial, we will strive to go above and beyond our client's expectations.

### GENERAC

River Town Electric is a certified Generac Generator dealer, installation, and service provider for home and commercial standby generators.

### COMMERCIAL

We service as well as provide major electrical renovations for your company or organization. We've renovated and serviced Ohio Valley Bank, Bridgeport, The Root, Marshalls, local churches, Starbucks, Tractor Supply, and

more and provided premium quality service.

### INDUSTRIAL

We've recently partnered with DPC Contractors INC, and are continuing to grow and complete large industrial solar projects. We've worked with Amazon, The Department of Defense, W.V. Air National Guard, The Department of Veterans Affairs, and more!

### OIL & GAS INDUSTRY

River Town Electric also offers oil and gas service, brine injection sites, metering, grounding, and more!

### SOLAR

We're so confident in the quality, safety, and dependability of solar that we installed solar panels on our own building. We proudly recommend solar solutions for your home or business, and have installed panels on several small businesses as well as major industrial projects for Amazon warehouses in Rossford, Ohio and Covington, Kentucky.
